I'm a backend developer working with .NET Core and Angular, aiming to become senior in Software Engineering. I'm currently a student at Faculty of Computer and Information, majoring in Computer Science. My most relevant skills include C#, ASP.NET Core, SQL Server, and strong problem-solving abilities.

Work Experience

Digital Egypt Pioneers Initiative Intern

June 2025 - Present

- Participated in the development of full-stack web applications using ASP.NET Core and Angular within an agile team environment
- Developed responsive and user-friendly frontends using Angular, HTML5, CSS3, and Bootstrap
- Integrated SQL Server for data storage and performed complex data queries using LINQ
- Collaborated in code reviews, team planning meetings, and daily stand-ups to ensure project alignment

IEEE backend developer -IEEE-Student Branch

October 2024 - February 2025

- I collaborated with my team to build a Company Task Management Web Application using ASP.NET MVC, offering a valuable hands-on experience in full-stack development. The project streamlined task assignment and progress tracking across different roles within a company.
- Worked in a team as team leader which learned how to manage my time and divide tasks

Achievements

- **Bestmember of season in IEEE branch**

Recognized as the best member of the season in IEEE branch

- **2ndplace in HOC faculty competition**

Got2nd place with my team in problem solving competition in faculty

- **ALACamp Attendance [African Leadership Academy]**

Iworked as a team leader in a group project under the slogan "BUILD" ,focused on solving real-world problems. Our chosen issue was addiction to digital devices. we implemented and presented our solution a software designed to help users manage and reduce screen addiction

Education

Computer Science Student

August 2023 - June 2027

ComputerScienceandInformation - Kafr Elsheikh University

- **Major** :Computer Science.
- **Grade**: Excellence

Skills

- **Front End** :
 - HTML5 | CSS3 | Bootstrap
- **Back End** :
 - C# | ASP.NET Core | ASP.NET MVC | Entity Framework Core | LINQ | Object Oriented Design
 - SQL Server | MySQL | SQL queries | Advanced C# and OOP | Object Oriented Programming
- **Others**
 - C++, Data Structure and Algorithms, Problem Solving
 - Git, GitHub, CI/CD
 - Collaboration, Flexibility, Time Management

Projects

- **Company Task Management Web Application**
- **Technologies Used: ASP.NET MVC, C#, Entity Framework, SQL Server, HTML5, CSS3, Bootstrap**
- **Duration: October 2024 - February 2025**
 - Developed a comprehensive task management web application for streamlining company workflows
 - Implemented user roles and permissions system to manage access across different team members
 - Created interactive dashboards for real-time progress tracking and performance analytics
 - Built responsive UI with modern design patterns for optimal user experience
- **Personal Portfolio**
- **Technologies Used: HTML5, CSS3, JavaScript, Bootstrap**
- **Duration: June 2023**
 - Designed and developed a personal portfolio website to showcase projects and skills
 - Implemented responsive design principles for optimal viewing across all devices
 - Utilized modern CSS techniques for animations and visual effects
 - Optimized performance for fast loading speeds and improved user experience

Certifications

- **Backend .NET Best member - IEEE KSB Student Branch (Oct 2024 - Feb 2025)**
- **Attendance of ALA Camp - African Leadership Academy**
- **2nd Position in HOC Problem Solving Computation**
